### What would you single out as a career highlight?

Combining my loves of medicine and art to create a colouring book about the brain, entitled 'A Journey Through the Brain'. This was a collaboration with the very creative and intelligent Prof David Cotter and Prof Mary Cannon at the Department of Psychiatry in RCSI.

### If you had not chosen this career path you would have become a...?

Economist.

### What are your personal interests outside of work?

When not drawing cartoons and illustrations on all manner of health subjects, I love travelling and exploring the great outdoors.

### Your favourite quote?

"The very first step towards success in any occupation is to become interested in it." - William Osler
