
Agfa HealthCare Supports The Royal College of Radiologists first Global Congress in Dubai

Last week, Agfa HealthCare was honored to support [The Royal College of Radiologists first Global Congress in Dubai, UAE.](#)

The Agfa team had very engaging conversations with the delegates and organized a comprehensive workshop on AI led by our Chief Medical Officer and Global Director AI, Dr. Anjum Ahmed.

Dr. Anjum Ahmed also met with His Excellency Mr. Awadh Seghayer Al Ketbi – Director General Dubai Health Authority (DHA), and Dr. Usama Al Bastaki, Director of Diagnostic Imaging DHA, to discuss Agfa HealthCare's AI strategy and how industry and care providers could collaborate further.

Agfa HealthCare team also met with the President Royal College Radiologists, Dr. Kath Halliday and her executive team to discuss opportunities relating innovation and impact of innovation on education and practical application of AI.

With Agfa's [RUBEE for AI](#) enabled [Enterprise Imaging](#) strategy, we have introduced an evidence-based approach to implementing AI in diagnostic imaging for our customers across the globe.

The [RCR2022 Global Congress in Dubai](#) has been an excellent event for such thought leading conversations and Agfa HealthCare looks forward to continue engaging with the thought leaders across the globe.
