

CareFusion - Fusing technology and intelligence to improve patient care.

Since July 1, the new company is known as CareFusion Corporation. CareFusion became a separate publicly traded company on Sept. 1, 2009 from the spinoff of Cardinal Health's clinical and medical products businesses. With more than 15,000 employees in more than 120 countries worldwide they help caregivers with measurably improve patient care by focusing on two of the biggest issues affecting healthcare, medication errors and hospital-acquired infections.

The family of products and services are used in over 120 countries and include some of the most widely recognized brand names in their categories:

- Pyxis
