
Dr. George Goshua Appointed to Annals of Internal Medicine Editorial Board

George Goshua, MD, MSc, Assistant Professor of Medicine (Hematology) within the Classical Hematology Program at Smilow Cancer Hospital and Yale Cancer Center, has been invited to join the *Annals of Internal Medicine* Editorial Board for a 3-year term, effective July 1, 2023. Established in 1927 by the American College of Physicians (ACP), the *Annals of Internal Medicine* is the premier internal medicine journal and among the most highly cited and influential journals in the world. Within the Editorial Board, Dr. Goshua will have an expert focus on Health Economics and with his service becomes a Fellow of the ACP.

Dr. Goshua is the Principal Investigator of the first quantitative decision science laboratory with a focus in hematology and oncology in the United States. [The Goshua Lab](#) employs quantitative decision analytic modeling methods to fill gaps in clinical guidelines, impact health resource allocation, and inform health policy decisions. A former Bernard G. Forget Scholar, Dr. Goshua's research is supported by the American Society of Hematology and The Frederick A. DeLuca Foundation Center for Excellence in Hematology Research Career Development Award. He received his medical degree from the University of Kentucky College of Medicine, completed his residency, chief residency, and fellowship at Yale, and received his Master of Science at the Harvard T.H. Chan School of Public Health with a focus in Risk and Decision Science. His clinical expertise is in the care of adults with rare hematologic disorders, with a particular interest in immunohematology and thrombosis.
