

ESC 2014: Toshiba Medical Systems Offers Free Workshops

Toshiba Medical Systems invites you to attend the educational events offered at ESC 2014 in the scientific program and on our booth to learn more about how we are bringing innovation to life.

A series of FREE educational sessions are offered for cardiologists throughout ESC 2014 to gain in-depth knowledge and skills on the latest imaging technologies. Each mentored workshop is preceded by a short lecture providing an overview on data acquisition, clinical use and image interpretation. Clinical cases will be analysed and interpreted by participants on the workstations provided. The maximum number of participants per session is 20 (2 participants per workstation). The workshop language is English and will be hosted in Hand-On Tutorials room 2, right next to our booth, throughout the day from Saturday to Tuesday.

In addition we are looking forward to welcoming you at our booth #F400 for live demonstrations of our latest innovations helping you to provide better patient care with greater efficiency. On our booth and through our Imaging Library app you will be able to access a wealth of clinical white papers and case studies covering a large bandwidth of diagnostic imaging and intervention topics.

Toshiba will also host a lunch symposium on Sunday, August 31, 2014.

Time: 12.45 – 13.45 hrs. (60 min)

Room: Riga – Village 5

Chair:

Prof. K. Kofoed, Rigshospitalet, Copenhagen, Denmark

Prof. H. Nesser, Elisabethinen Hospital, Linz, Austria

Speakers:

12:45 – 13:05 Dr. Thomas Zerm Dose reduction in interventional electrophysiology

13:05 – 13:25 Dr. Marcus Chen Advanced Cardiovascular Imaging Laboratory

13:35 – 13:45 Dr. E. Casas Rojo CVI Fusion: Introduction and early experience of a new multi-modality approach in cardiovascular imaging
