Gareth Dempsey is the New Director of Healthcare Technology, MDI Medical Ltd

Gareth Dempsey has been promoted to Director of Healthcare Technology for MDI Medical Limited. He will be responsible for the overall vision, development, growth, and leadership of MDI's Healthcare Technology Division. The creation of the new Healthcare Technology division brings together all Health IT solutions - both software and hardware - under one umbrella and team.

Gareth has previously worked as a Healthcare Informatics Sales Manager for more than five years at MDI Medical Limited. He also holds vast work experience with SISK Healthcare in various positions including Clinical Sales Specialist and Clinical Sales Engineer. Gareth has strong professional skills in Health Tech & IT sales, team management & leadership, connected digital health and Healthcare Information Technology (HIT).
