GE Healthcare IT Announces Acceleration of Centricity Enterprise Engineering Partnership at Arab Health

GE Healthcare IT leveraged its participation at Arab Health, held January 25 to 28 in Dubai, to a year of delivery of new product updates, new services, new systems integration partners, and new customer deployments for Centricity Enterprise.

Al Seif Hospital in Kuwait, will be the first in the Gulf Region to benefit from the updates and services, showcasing the new healthcare IT technology.

Specifically, the following new investments are being made to accelerate solution and services delivery, starting in 2010:
