

ISICEM 2013: Opening Session

The 33rd International Symposium on Intensive Care and Emergency Medicine (ISICEM 2013) will open its doors on March 19 at the international meeting centre The Square in Brussels. This is the largest international symposium in the field which gathers almost 6,000 participants from all over the world.

This year, again, the organisers have lined-up a great number of sessions from well-known experts in the field who promise to provide up-to-date review of the most recent developments in research, therapy and management of the critically ill patients.

Professor Jean-Louis Vincent, the Chairman of the Symposium, will welcome the delegates at the **opening session** which will take place on March 19, 2013 at 8:30 in Salle HLB.

For more information about the symposium please visit: www.intensive.org

We look forward to seeing you in Brussels - the ICU Management team!
