Jeffery Schaefer Joins Akvelon as EVP of Business Development for Healthcare and Life Sciences

[Jeffery Schaefer](#) has announced his excitement about joining Akvelon, an international software engineering company, as the Executive Vice President of Business Development for Healthcare and Life Sciences.

Akvelon, headquartered in Bellevue, Washington, is renowned for its innovative use of AI to assist businesses across various sectors in developing cutting-edge software solutions. With a global presence spanning 15 offices in 11 countries, the company has been at the forefront of engineering initiatives since its inception in 2000, specialising in AI, Big Data, IoT, Machine Learning, Data visualization, VR, and BI.

Schaefer brings a wealth of experience to his new role, having served as the Enterprise Account Executive for Life Sciences and MedTech at SoftServe, a global digital authority and consulting company. During his tenure, he played a pivotal role in driving digital transformation initiatives, leveraging technologies such as AI, blockchain, and IoT to deliver innovative solutions to clients worldwide.

With over 25 years of senior executive experience in highly regulated industries, Schaefer possesses a deep understanding of the challenges and opportunities inherent in Healthcare and Life Sciences. His track record includes successful collaborations with Fortune 100 companies such as Siemens Healthineers, Microsoft, Cerner, and GE Healthcare.

Expressing his passion for applying mainstream and emerging technologies to improve healthcare outcomes, Schaefer aims to leverage his expertise in digital transformation and enterprise cloud solutions to drive Akvelon's strategic growth in the Healthcare and Life Sciences sectors. He looks forward to collaborating with Akvelon's talented team to deliver customised solutions that address the most critical challenges faced by their clients.
