
Kimal to Celebrate Golden Anniversary

Kimal are an innovative and trusted developer, manufacturer and supplier of customised procedure packs and vascular access devices for use across a range of clinical departments.

2014 will see the company's Golden Anniversary, and Kimal will be celebrating this year as they reach 50 years of delivering healthcare innovation.

To acknowledge this milestone Kimal will be taking a look back in time at all their accomplishments, providing interesting facts and memorabilia along the way. Each week their official website and Twitter accounts will provide updates throughout the year.

2014 will also see a year-long series of fund-raising events for Challenge 50, in which the team aims to raise £50,000 for the Make-a-Wish Foundation, a charity that grants magical wishes to children and young people fighting life-threatening conditions. In addition, all employees can look forward a 50th anniversary celebration in November 2014 at the ICC in Birmingham.

The company's exclusive 50th anniversary brochure can be viewed [via this link](#).
