

## MedHQ Announces Erik Miller as President and General Manager

Healthcare and private equity industry leader to scale 424 Capital Platform, MedHQ through significant growth and continued integration of new acquisition.

MedHQ, a leading provider of technology-enabled expert services to hospitals, outpatient clinics, physician groups, and ambulatory surgery centers, has appointed Erik Miller as President and General Manager. In this role, Miller will lead MedHQ's business segments and client delivery strategies which encompass outsourced HR services, Accounting services, Recruitment and Staffing services, and Advisory services.

Miller joins MedHQ after more than 15 years in the healthcare industry, most recently serving as Interim President of Anesthesia Medicine at Ventra Health as well as serving as the company's Chief Strategy and Business Development Officer.

"I am thrilled to join MedHQ and have the opportunity to work alongside a dynamic team of experts who enable our clients to access a suite of tech-enabled expert services so they can focus on what matters most – delivering exceptional patient care," said Miller.

"We have demonstrated our ability to recruit outstanding talent through acquisitions and have extended this capability to organic hires like Erik," said MedHQ CEO Tom Jacobs. "Recruiting healthcare experts aligns with our core values and is critical as MedHQ continues to grow and scale."

Kyle Stanbro, Partner at 424 Capital added, "We have been engaged with Erik for many months and are thrilled to welcome him to the team. His depth and variety of experience in operations, strategy, and M&A will enable us to continue executing against our aggressive growth plans as we develop MedHQ into a leading healthcare platform."

Miller's appointment comes less than two years into 424 Capital's investment in MedHQ, and less than a year since acquiring Becker Health and Avanza Healthcare Strategies. MedHQ continues to seek add-on acquisitions in combination with significant organic growth opportunities and partnerships.
