## Our Top 10 Imaging Stories from 2019

---

As the year draws to a close, we take a look at our ten most viewed Imaging stories across our 2019 news and journals.

### [Multisociety AI Radiology Ethics Framework Announced](#)

With AI moving into radiology at lightning speed, international imaging and informatics societies have worked together to produce a paper on ethics guidance.

### [How to Integrate AI into Radiology Workflow](#)

Where do the computer sciences have the potential to reduce radiologist burnout, reduce costs and make workflow more efficient and what are the first steps in implementing the technology?

### [Creating the Dream Team in Radiology](#)

A modern successful radiology department team needs top-flight professionals in everything from imaging to social media management.

### [Leading Breast Radiologist Wins 2019 RSNA Accolade](#)

HealthManagement.org caught up with Fiona Gilbert in her busy schedule to discuss what she sees for the future of breast imaging and how she feels about RSNA recognition.

### [BREXIT Means BREXIT: Radiologists Without Borders](#)

Prof. Papalois spoke to Healthmanagement.org about BREXIT and the potential repercussions the break from the EU may bring to patients and medical professionals.

### [Malpractice: CT Scan Reading Errors Cause Patient Injury](#)

Errors in interpreting imaging studies, particularly CT scans, are the leading cause of patient injury involving diagnostic radiologists, according to a study by malpractice insurer The Doctor's Company.

### [Game-Changing Meeting of Minds: Radiology and Imaging Informatics](#)

A visionary radiologist explains how the European Society of Medical Imaging Informatics is bringing imaging and informatics together for best practices and patient outcomes.

### [Blockchain for Radiology](#)

Blockchain is an exciting new technology that promises to address many problems that exist within the current framework in radiology. Where can Blockchain potentially spark a revolution and increase quality while decreasing healthcare cost?

### [Future of Ultrasound: Where Are We Going?](#)

Prof. Sidhu, EFSUMB president, spoke to Healthmanagement.org about using ultrasound simulation models as tools for training and education, the greatest potential in combining ultrasound with contrast-enhanced ultrasound in examining children and new initiatives in the pipeline leading to EUROSON 2019.

### [AI Radiological Image Analysis Pilot in Luxembourg](#)

Luxembourg hospital group Hôpitaux Robert Schuman (HRS) and Hanalytics Sàrl, the Luxembourg subsidiary of Singapore based Tech firm Hanalytics, joined forces to trial a radiological image analysis solution powered by AI system BioMind®.
