
Philips has a New Senior Product Manager Patient Monitoring Informatics Service Agreement

Susanne Marek started her new position as Senior Product Manager, Patient Monitoring Informatics Service Agreement at Philips. Her duties include the product launch in Q2 2022, service product development on time and within budget, business forecast about MEURO 200 until 2027, and prioritised solutions within Philips.

Susanne is a Marketing Manager (engineer, MBA), who will add value in an international and professional working environment. She is very versatile, with significant experience in international project management, commercial, and organisational and interpersonal skills, developed in profit and non-profit organisations.

She is an ambitious, organised and proactive team player with the ability to quickly understand processes and solve problems efficiently with strong communication, marketing and leadership skills.
