Rick Gaylord Joins EDAS as Imaging Specialist

Renowned for his 25-year stint in the Medical Imaging Service Industry, Rick Gaylord steps into a pivotal role at EDAS, a premier machine data analytics company driving innovation in the Internet of Things (IoT) domain.

With a wealth of experience liaising with C-Suite management teams across diverse healthcare setups, Rick's expertise as a front-line Clinical Engineering Imaging Manager and Supervisor is unmatched. His OEM factory training coupled with extensive field service engineering background makes him a force to reckon with in servicing and installing diagnostic imaging equipment across a spectrum of healthcare facilities, from large hospitals to intimate dental offices.

Recognised for his tenacity and adept leadership, Rick is hailed for his knack in troubleshooting complex technical issues and driving tangible improvements in patient care experiences. His multifaceted skill set spans imaging system design, international technical support, and adept project management.

Having spearheaded initiatives to enhance equipment uptime and curtail service costs, Rick Gaylord's arrival at EDAS promises to usher in a new era of innovation and efficiency in the realm of imaging technology. His track record of successes in bone densitometry, mammography, ultrasound, CT, MRI, general radiology, and fluoroscopy digital systems speaks volumes about his prowess in the field.
