
Sectra enters the Philippines by signing medical imaging distribution agreement with Medical One

International medical imaging IT and cybersecurity company [Sectra](#) enters into a partnership with Medical One Corporation, a leading provider of medical equipment in the Philippines. Through this distribution agreement, the Philippines healthcare market will gain access to efficient and patient-centered care with Sectra's solutions.

"Healthcare in the Philippines is expanding its ability to share and collaborate around medical images and patient information through consolidation and telemedicine initiatives," says Marie Ekström Trägårdh, Executive Vice President of Sectra AB and President of Sectra Imaging IT Solutions. "This distribution agreement with Medical One will enable us to address these demands by combining their market-specific expertise with our extensive experience in delivering scalable solutions that cover multiple enterprises in large geographic areas—within teleradiology and telepathology specifically."

The Philippines has approximately 400 regional and university hospitals that take care of more than 100 million habitants. 60 percent of the radiology medical specialty is now digital. Medical One has more than 340 customers, of which 40 are regional and university hospitals.

The distribution agreement with Medical One includes Sectra's Enterprise Image Management solutions, comprising [PACS \(Picture Archiving and Communication System\)](#) for imaging-intense departments, [VNA \(Vendor Neutral Archive\)](#) and solutions for sharing and collaborating around medical images.

Experience the solutions at RSNA 2017

Meet Sectra at RSNA in booth #6113 where Sectra's solutions for radiology imaging will be showcased. [Read more and book a meeting with Sectra at RSNA.](#)
