
Sectra PACS wins 'Best in KLAS' in the US for the sixth year in a row

International medical imaging IT and cybersecurity company [Sectra](#) continues to be the #1 rated PACS and is awarded the prestigious customer satisfaction award 'Best in KLAS'. For the sixth continuous year, Sectra has been named 'Best in KLAS' in the US for [PACS \(Large Hospital/IDN\)](#) with a score of 94 out of a possible 100. The distinction is given by the healthcare IT data and insights company KLAS Research. With an increasing number of VNA customers, Sectra is also included in the report in the VNA Image Archive category*.

"We are dedicated to contributing to improving the effectiveness in healthcare, and happy users are the ultimate proof that Sectra's staff and solutions achieve that in the best possible way. I am thankful and honored to be acknowledged for our top ratings in customer satisfaction," says Dr. Torbjörn Kronander, President and CEO of Sectra.

The first Sectra PACS was installed in 1993 and today, the company has 1,800 installations worldwide. Sectra PACS is an integral part of Sectra's enterprise imaging solution comprising VNA and spans image-intense departments such as radiology, breast imaging, pathology, orthopaedics, and cardiology.

"When we call the help desk, 90% of our problems can be solved by the person who answers the phone. That is very nice. Sectra's staff members are very knowledgeable and jump right in. Support is definitely the best thing with Sectra," says US Analyst/Coordinator, December 2018, [KLAS Research](#)**

"We have had Sectra PACS for many years, and we could not be happier. Our radiologists have seen numerous PACS products, and they feel that Sectra PACS is by far more functional and easier to use than other products. We have radiology technicians who work at other hospitals part-time. They feel that no other system even compares to Sectra PACS," says US Manager, November 2018, [KLAS Research](#)**

About 'Best in KLAS'

2019 Best in KLAS is a recognition of outstanding efforts to help healthcare organizations in their quest to deliver quality patient care. The Best in KLAS designation is awarded only in those software and services market segments that have the broadest operational and clinical impact on healthcare organizations.

* Sectra was included in KLAS' "Below Confidence category" because fewer than 15 interviews were conducted. KLAS Confidence is a measure of sample size.
