
Siemens Healthineers Sessions at RSNA 2021

From 28th November until 1st December unlock the access to dozens of free curated sessions by Siemens Healthineers.

Nov 28, 18:30 GMT+2

Unveiling of the world's first photon-counting CT

A quantum leap in clinical decision making. Learn more about how it works, the answers it provides and how it changes clinical decision making.

Description: After 15+ years of development, we are introducing the world's first photon-counting CT. It is nothing less than the total reinvention of computed tomography. Learn from our experts how this system offers a radical new way to generate clinical results, helps users impact treatment outcomes with answers that are truly meaningful, precise, and reproducible.

Experience a defining moment in computed tomography.

Presenters:

Miranda Rasenberg

Head of Marketing & Sales CT
Siemens Healthineers

Philipp Wolber

Global Marketing Manager CT
Siemens Healthineers

myExam Companion: Intelligence that works with you

As a tech in radiology, you give your best every day to create the best outcomes for patients, colleagues and other stakeholders. You are taking care of both: patient comfort and reliable imaging results. But have you ever wondered who is taking care of you? Just imagine that the imaging systems you are using could help you in an intelligent way while you are focusing on the patient and the image acquisition! Wouldn't this be a better working environment for you?

Join this talk to learn how myExam Companion can be your companion in daily work routine. Using the latest possibilities of digitalization, it turns data into built-in expertise. And it guides you through diagnostic CT, MRI and radiography procedures, so that you can interact easily and naturally with both patient and technology.

Going beyond PACS

New innovations in digitalization and software may mean IT investments into PACS systems will become a thing of the past

Historical Picture Archiving and Communication System (PACS) functions are still very much required, but is an investment into a PACS a wasted investment in Healthcare driven by true digitalization.

Some software elements inside Syngo Carbon are currently not regulatory cleared in all countries or regions.

Presenter:

Mark Woods
Head of Global Marketing - Imaging Software & IT (Syngo)
