
Teleflex to Focus on New Anesthesia Solutions at Euroanaesthesia 2013 (“ESA”) in Barcelona

Teleflex Incorporated, a leading global provider of medical devices for critical care, urology and surgery, will showcase its comprehensive anesthesia portfolio, including regional anesthesia, at the Euroanaesthesia congress in Barcelona, Spain on June 1-4, 2013.

At the ESA congress on June 1-4, Teleflex unveils the broadening of its comprehensive range of anesthesia products - Rüsch, Arrow, Hudson, Gibeck - with another trusted brand, LMA™, a global market leader in laryngeal masks which is now part of Teleflex.

At the booth, particular focus will be placed on the LMA Supreme™ single-use airway. The LMA Supreme™ airway is a second generation, gastric access airway with an effective First Seal™ technology and Second Seal™ technology delivering a new standard of care for both advanced and more advanced procedures.

Teleflex will also highlight the innovative EZ-Blocker™ endobronchial blocker, a novel and patented bronchial blocker for lung isolation and one lung ventilation, featuring a unique bifurcated distal end, in “Y-shaped design”.

Another new product, the Ready-Heat™ Temperature Management Blanket, will also be presented at the booth. This is a fully mobile patient warming solution to prevent anesthesia-induced hypothermia and increase patient comfort.
