
Ulrich Laupper Appointed as Member of the Executive Committee of the Exosens Group at Exosens

Ulrich Laupper has embarked on a new journey as a Member of the Executive Committee at Exosens Group within Exosens. A distinguished figure in the global healthcare and life sciences technology arena, Ulrich brings a track record of visionary leadership and industry expertise to his role. His career highlights include establishing a North American subsidiary for a European healthcare technology firm, driving revenue and profitability growth in healthcare and life sciences tech businesses, and creating direct sales and marketing teams.

Exosens, a leader in cutting-edge electro-optical tech for defence and industry, welcomes Ulrich to its team, with a legacy of 85+ years in detection and imaging technology development. Their product range spans digital cameras, electron detectors, ion detectors, neutron and gamma detectors, microwave amplifiers, and image intensifier tubes, catering to complex challenges in demanding environments across various markets. Exosens, with 1500 professionals, boasts a rich blend of technical expertise and research capabilities, ensuring they remain at the forefront of innovation. Their global sales network and commitment to customer satisfaction underline their success in delivering high-end products and solutions.
